

AMR MOHAMED, Ph.D.

Professor, Computer Science and Engineering department
College of Engineering, Qatar University
P.O. Box 2713, Doha, Qatar
Tel: (974) 4403-4273

Email: amrm@ieee.org , website: <http://qufaculty.qu.edu.qa/amrm>

Awards and scholarships

June 2018	Recognition for contributions from Hamad Medical Corporation (HMC)
June 2018	College of Engineering excellence award academic/services, QU
April 2018	Best paper award World Telecom Symposia 2018 (WTS).
June 2017	College of engineering excellence award academic/research, QU
June 2017	Supervising best senior project from CSE department, QU
June 2017	Organizing the best symposium at the IWCMC conference from IEEE
March 2017	Supervising best project in the UREP competition from QNRF
July 2015	Best paper award IEEE IFIP NTMS conference, Paris, France
May 2013	Best poster for grad student from Qatar Univ., graduate studies forum, QU
May 2013	Best poster for researcher from Qatar Univ, researchers day, QU
June 2012	Best researcher from CSE department, QU
June 2011	Supervising best Senior project in the CSE department, QU
May 2011	Best poster from Zayed univ in URC2011 conference
March 2011	3rd place in the 3rd UREP competition
June 2010	Best researcher from CSE department, QU
May 2010	Best presentation from Zayed univ in URC2010 conference
2002-2006	Tuition award from ECE-UBC
2001 and 2003	2 Project team success awards from IBM Canada
Nov 2005	Best paper for the month from the Global Engineering, Science, and Technology Society (GEST) Int. Transactions, Computer S & E
April 2004	Thank you individual award from IBM Canada

Education

August 2006	<p>Ph.D. in Electrical and Computer Engineering. The University of British Columbia, Vancouver, B.C.</p> <ul style="list-style-type: none"> • Thesis title: Utility-based Resource and QoS Optimization in Wired and Wireless Networks • Research Areas: Ad hoc networks, Wireless LANs, real time broadcast/multicast, resource optimization, QoS.
-------------	---

My thesis research focused on designing resource optimization methods for wired and wireless networks. Work in my thesis includes the development of a set of algorithms for QoS-based classification/partitioning for wired networks, and a set of decentralized algorithms for end-to-end resource allocation in wireless ad hoc networks.

My work as a Research Assistant during my PhD required me to participate in the design and implementation of a WLAN 802.11 prototype access point for educational purposes. Working in this project has exposed me to all the MAC layer aspects of wireless communication systems. Also, in this project I am participating with a team performing different system implementation activities including an implementation of the PHY and parts of the MAC using VHDL on Xilinx FPGA and a Real Time firmware implementation of the MAC on VxWorks for PowerPC processor.

- September 2001 **M.A.Sc. Degree in Electrical and Computer Engineering
University of British Columbia**
- Thesis title: Novel Push-Model Framework For Realizing Multi-Service MPEG4 Streams In Broadcast Applications
 - Project description: Implemented a new Framework for broadcasting multi-session MPEG4 objects over IP networks.
 - Contributed the implementation to the MPEG group (IM1 reference S/W).
 - Grade: 93% (A+).
- June 1993 **B.A.Sc. Degree in Electronics and Electrical Communications Engineering,
Faculty of Engineering, Cairo University.**
- Graduation grade: Distinction with Honors.
 - Graduation project title: Automatic Testing Equipment (ATE).
 - Project grade: Distinction.

Professional Work Experience

- June 19 **Professor, Qatar University, Doha, Qatar.**
- Sept 14 **Associate professor, Qatar University, Doha, Qatar**
- Sept 07 **Assistant professor, Qatar University, Doha, Qatar**
- to date
- Research in the areas of Internet of things (IoT), and IoT security, smart Health, and surveillance, wireless sensor networks, resource optimization in ad hoc networks, resource allocation and routing in wireless mesh networks, applications of wireless sensor networks for vertical industries including healthcare, oil/gas, and industrial control.
 - Teaching and developing curriculum for computer networks & security, and object oriented programming undergrad courses and advanced computer networks, and wireless networks for masters of computing.
 - Member/chair in the department committees:
 - Strategic planning committee (member): participate in the development of the department strategic plan.
 - Research committee (chair): coordinating departmental research initiatives with internal and external entities, coordinating research activities and groups in the department.
 - Senior project committee (member): participate in the development of policies and regulations pertaining to students' senior design projects.
 - Graduate committee (chair): coordinating master/PHD student applications, study plans, and updating graduate program curricula.
 - Recruitment committee (member): managing departmental faculty/staff applications, and coordinating interviews, etc.
 - Participating in university committee for vetting research grant proposals for national priority research program (NPRP) verifying research proposals according to university rules and regulations.
 - Director of the Cisco regional academy in the college of engineering:
 - Managing and administering Cisco certification program for the whole area of Qatar.
 - Defining strategic planning for running the regional academy including marketing, recruitment of local academies, and planning internal and external events to promote the academy initiative in and outside of Qatar University.
 - Coordinating more than 15 CCNA and IT Essentials classes for students and instructors in 3 local academies at Qatar University.
 - Supporting the operation of 6 external local academies universities, educational, and industrial training institutes in Doha.

- Jan 01 – Sept 05 **University of British Columbia (UBC)**
- Taught computer engineering courses including “real-time systems” and “embedded systems”.
 - Graduate seminars about “Video streaming”, “QoS in optical WDM networks”, and “Resource optimization in wireless Ad hoc networks”.
- Dec. 94 - Feb. 98 **National Telecommunication Institute (NTI)**
- Taught Computer Networks courses addressing network protocols such as TCP/IP, Frame relay, ATM, etc.
 - Participated in national research projects in networks planning using simulation software, Opnet Modeler and Opnet Planner.

Supervising

1. Ahmed Zaza, Master student, Qatar University.
2. Abdulhady Al-Qahtani, Master student, Qatar University.
3. Naram Mhaisan, Master student, Qatar University.
4. Lamiaa Basyoni, PhD student, Qatar University.

5. Emna Baccour, Postdoc, HBKU University.
6. Zina Chkirbene, RA, Qatar University.
7. Hany Hassan, Postdoc, Qatar University, joined iconec GmbH, Germany as Senior RF Engineer.
8. Majid Butt, Postdoc, Qatar University, joined Trinity College London as a research scientist.
9. Hafiz Yasar, Postdoc, Qatar University, entrepreneur in London, director, TelXperts.
10. Amr Elsherif, Postdoc, Qatar University, currently assistant professor in Nile University, Egypt.
11. Lamia Romdhani, Postdoc, Qatar University
12. Abduljalil Mohamed, Postdoc, Qatar University
13. Irfan Ahmed, Postdoc, Qatar University
14. Mohamed Ali, Postdoc, Qatar University
15. Mohamed Alsad, RA, Qatar University
16. Mounira Tlili, RA, Qatar University
17. Belal Eldiwany, RA, Qatar University
18. Yahia Shabara, RA, Qatar University, joining Ohio state university for fall 2016 as PhD student.
19. Ahmed Salama, RA, Qatar University, joining university of Arizona for fall 2016 as a PhD student.
20. Islam Samy, RA, Qatar University, joining university of Arizona for fall 2016 as a PhD student.
21. Mouhyemen Khan, RA, Qatar University. Joined as a PhD Student at Georgia-Tech since Fall 2016.
22. Imran Ahmed, RA, Qatar University
23. Ahmed Hossam, RA, Qatar University. Joined university of central Florida as a PhD student since Fall 2014.
24. Mahmoud Ashour, RA, Qatar University, joined Pennsylvania state university as a PhD student since Fall 2015.
25. Medhat Hamdy, RA, Qatar University, Joined Carleton University, Canada as a PhD student in fall 2015.
26. Ramy Hussein, RA, Qatar University, joined University of British Columbia, Canada since Spring 2016.
27. Nada Ashqar, RA, Qatar University
28. Alaa Awad, PhD student Qatar University.
29. Amal Saad, PhD student, Qatar University
30. Javad Hajipour, PhD, University of British Columbia, Canada.
31. Abeer Almarridi, M.Sc. students, Qatar University.
32. Aisha Arar, M.Sc. student, Qatar University.
33. Hussein Saad, M.Sc. Nile University, Egypt, joined University of Texas at Dallas as a PhD student since fall 2014.
34. Amith Khandakar, M.Sc. student, Qatar University
35. Fatima Hamza, M.Sc. student, Qatar University

Collaborators (partial list)

1. [Prof. Rabab Ward](#), president of IEEE signal processing society, University of British Columbia.

2. [Prof. Victor Leung](#), University of British Columbia.
3. [Prof. Jane Wang](#), University of British Columbia.
4. [Prof. Panos Nasiopoulos](#), University of British Columbia.
5. [Prof. Mohsen Guizani](#), University of Idaho.
6. [Prof. Charlie Hu](#), Purdue University.
7. [Prof. Hussein Alnuweiri](#), Texas A&M, Qatar.
8. [Prof. Hesham Elgamal](#), Ohio state university.
9. [Prof. Eduard Jorswieck](#), Dresden university technology.
10. [Dr. Carla Chiassarini](#), Polytechnic de Torino.
11. [Dr. Tamer Elbatt](#), Nile University, Cairo University.
12. [Dr. Ioannis Krikidis](#), University of Cyprus.

Research Support

Dr. Mohamed has managed to bring a total research fund of over 10 million dollars since he was hired at Qatar University. This includes:

QNRF and external grants (2-3-year projects)

1. NPRP12S-0119-190006 **"A Telemedicine System for Minimally Invasive Surgeries - Application Towards Surgical Treatment of Cancer and Renal Diseases"** Joint HMC, QU, and University of Houston, NPRP 12th cycle, \$600000, 2019, PI **(Active)**.
2. NPRP12S-0305-190231 **"Ultra Reliable Low Latency Smart Health System Design over 5G Networks for Patients with Neurological Disorders"**, Joint QU, AUB, and UBC, NPRP 12th cycle, \$400000, 2019, Lead PI **(Active)**
3. NPRP8-408-2-172 **"Light-Weight and Effective Security Schemes for Wireless Medical Devices"**, Joint QU with Temple University and University of Idaho, USA, National Priorities Research Program (NPRP) 8th cycle, \$750000, 2016, Lead PI. **(completed)**
4. NPRP 7-684-1-127 **"QHCN: Towards Reliable and Efficient mHealth System with Multimodal Processing and Communications for Effective Remote Patient Diagnosis"**, Joint QU with University of British Columbia, and Carnegie Mellon University-Qatar, National Priorities Research Program (NPRP) 7th cycle, \$900000, 2015, Lead PI. **(completed)**
5. GSRA2-1-0609-14026 **"Reliable and Energy-Efficient Cross-Layer Design for mHealth System for Effective Patient Monitoring"**, QNRF GSRA 2nd cycle, Qatar University, \$200,000, Supervisor-Mentor. **(completed)**
6. NPRP 5-782-2-322 **"GAD: Green And Dense - designing the new wireless access network"** QU with Polytechnic de Torino, Italy, and Nile University, Egypt (NPRP) 5th cycle, \$1,000,000, 2012, CO-LeadPI **(completed)**.
7. NPRP 5-559-2-227 **"Information Theory Enabled Secure Wireless Networking: Scaling Laws, Network Control, and Implementation"** joint QU with Ohio State University, and University of Arkansas at Little Rock, NPRP 5th cycle, USA, \$1,045,663, CO-PI **(Successfully completed)**. **(completed)**
8. NPRP 4-463-2-172 **"Wireless Sensor Networks for Video Surveillance"**, Joint QU with University of British Columbia, Vancouver, Canada, National Priorities Research Program (NPRP) 4th cycle, \$1,050,000, 2011, Lead PI **(completed)**.
9. NPRP 4-1034-2-385 **"Optimal Sensing, Resource Allocation, and Protocol Design for Real-time Communications in Dynamic Spectrum Access Networks"** Joint QU with University of Arizona, Tucson, Arizona, USA, and Nile

- University, Cairo, Egypt, National Priorities Research Program (NPRP) 4th cycle, \$1,045,000, 2011, CO-Lead PI **(completed)**.
10. NPRP 09 -310-1-058 **“Innovative framework for scalable signal processing and power-efficient communication in healthcare wireless body area sensor networks”**, Joint QU with University of British Columbia, Vancouver, Canada, National Priorities Research Program (NPRP) 3rd cycle, \$1041000, 2010, Lead PI **(completed)**.
 11. NPRP 08-374-2-144 **“Experimental Testbed-based Studies of Radio Access, Routing, and Network Resource Allocation”**, Joint QU with Purdue University, West Lafayette, Indiana, USA, National Priorities Research Program (NPRP) 2nd cycle, \$1050000, 2009 Co-Lead PI **(completed)**.

Qatar University internal grants (2-year projects)

1. QUHI-CENG-20/21-1 **“Q-Hummingbirds: Distributed cooperative multi-UAV platform for agile coverage and surveillance”**, High impact grant, Qatar University, \$160,000, 2019-2021 (2 years), PI **(Active)**.
2. **“Designing Secure and Trustworthy Internet of Things (IoT) Systems”**, IRCC grant, Qatar University, \$160000, 2019-2021 (2 years), PI **(Active)**
3. QUHI-CENG-19/20-1 **“Edge computing for scalable and secure medical data exchange using Blockchain”**, High impact grant, Qatar University, \$160,000, 2018-2020 (2 years), Lead PI **(Active)**
4. GCC-2017-009 **“Environmentally-Friendly Smart Home for Elderly and Physically Impaired People”**, GCC-Collaboration, Qatar University, and King Saud University, \$80,000, Lead PI, 2017. **(completed)**
5. **“A Distributed Agent-Based Mobile Ad-hoc Networking Architecture for QoS Support”**, Qatar University Internal grants, QR150,000, PI. **(completed)**

Industry grants

1. MRC-01-17-091 **“Investigation Of The Utility Of Employing Techniques Of Deep Learning Algorithmic Analysis To Raw EEG, Vital Signs And Observational Data From Patients Receiving Intravenous Antibiotic Medication, With Respect To Using The Output Data To Better Predict The Risk Of Seizure Events”** In collaboration with HMC Qatar, PI **(Active)**.
2. **“Crowd management for world cup 2022”**, Collaboration with Supreme Council (SC), Consultant and PI **(Active)**.
3. **“Video Analytics for world cup 2022”**, Collaboration with Supreme Council (SC), Consultant and PI **(Active)**.
4. **“Cross Layer Design, seamless networking for Heterogeneous wireless access, and streaming over LTE networks”**, Joint QU with University of British Columbia, Vancouver, Canada, Industrial grant QTel, \$300,000, CO-PI **(completed)**.

Undergraduate research projects (1-year projects)

1. **“Efficient mHealth system architecture for remote delay-sensitive monitoring applications”**, Undergraduate Research Experience Program (UREP) 17th cycle, \$40000, 2015, primary mentor (won first place in the UREP competition) **(completed)**.
2. **“Scalable indoor patient and staff monitoring and tracking using wireless sensor networks”**, Undergraduate Research Experience Program (UREP) 7th cycle, \$30000, 2008, primary mentor **(completed)**

3. **“WIPMON: Wireless sensor network for Industrial process MONitoring”**, Undergraduate Research Experience Program (UREP) 5th cycle, \$30000, 2008, primary mentor **(completed)**.
4. **“An Intelligent Traffic Light Control System for Ambulance Use”**, Undergraduate Research Experience Program (UREP) 5th cycle, \$40000, 2008, CO-PI (won third place in the UREP competition) co-mentor **(completed)**.
5. UREP 03-003-2-083 **“WPSS: Wireless Patient Surveillance System “**, Undergraduate Research Experience Program (UREP) 3rd cycle, \$38000, 2007, co-mentor **(completed)**.

Other proposals (before being hired at Qatar University)

- As a research assistant, Dr. Mohamed has participated in preparing the following grant applications as part of his work at UBC, Canada:
 - **“Resource Allocation and Management in Wireless Multicast Networks”**, for Natural Sciences and Engineering Research Council of Canada (NSERC) and Telus Inc 2005.
 - **“Optimal Price-based Classification and Admission Control Policies for Multi-Class Link Models”**, for Telus Inc., Canada 2004.
 - **“ UBC Optical Lambda Router Architecture”**, for NSERC, 2002.

Memberships in academic committees, advisory committees and journal editorial boards

- **Editorial boards**
 - International Journal of Sensor Networks (inderscience) url: <http://www.inderscience.com/jhome.php?jcode=ijsnet>
 - Journal of internet technology url: <http://jit.ndhu.edu.tw/ojs/index.php/jit>
- **Qatar University Wireless Innovations center QMIC at QSTP, Qatar 2009**
- Member of [Standards Council of Canada](#) work group (ISO/IEC/JTC1/SC29) for [MPEG](#) advancements
- **Technical program committee:**
 - IEEE Globecom since 2010, US.*
 - International conference on communications, ICC 2010-2016*
 - IEEE WCNC since 2010.*
 - IEEE PIMRC since 2012.*
 - IEEE VTC since 2012.*
 - Innovation in information technology (IIT) in Dubai, 2007*
 - The 5th IEEE-GCC Conference, Kuwait, 2009, 2015*
 - IEEE PacRim 2009-2012.*
 - The 6th IEEE/ACS International Conference on Computer Systems and Applications, AICCSA 2008, Qatar.*
- **Conference track chair**
 - International conference on communication, Doha 2010 - “Wireless Ad Hoc and sensor communications” track.
 - [10th International Conference on Cognitive Radio Oriented Wireless Networks](#) (CROWNCOM2015)- Track 2: Networking Protocols for CR
 - [IEEE Wireless Communications and Networking Conference \(WCNC2016\)](#) workshops chair.
 - [IEEE GLOBECOM 2016](#) - Ad Hoc and Sensor Networks track.
- **Workshop co-chair**
 - Wireless Local Networks (WLN 2011) <http://wln11.qu.edu.qa/>

- **Technical reviewer**
IEEE transactions of information forensics and security
IEEE Transactions on computers
IEEE Transactions on mobile computing
IEEE/ACM Transactions on Networking
IEEE Transactions on Wireless Communications
IEEE Transactions on Cognitive Communications and Networking
IEEE Transactions on Information Technology in Biomedicine
IEEE Systems Journal
IEEE Access: Special Section: Internet of Things (IoT) in 5G Wireless Communications
Elsevier, the International Journal of Computer and Telecommunications Networking
Elsevier, the International Journal of Ad Hoc Networks
Elsevier, the International Journal of Computers & Electrical Engineering
EURASIP, Journal on Wireless Communications and Networking
- IEEE senior member since 2014
- IEEE member since 2000
- IEEE communication society member since 2002
- IEEE Signal processing society member since 2014

Important Presentations

1. **“Managing and submitting NPRP projects”**, Seminar for CSE faculty members, November, 2010.
2. **“QNRFP NPRP submission process: tips and tricks”**, Seminar for CSE faculty members, October, 2009.
3. **“Experimental Testbed-based Studies of Radio Access, Routing, and Network Resource Allocation”**, Research presentation, ICT-Day, CENG research week, April, 2011.
4. **“Outage Optimal Resource Allocation for Two-hop Multiuser Multirelay Cooperative Communication in OFDMA Upstream”**, presented at IEEE VTC Spring conference, Budapest, Hungary, May, 2011.
5. **“Wireless technologies: Middle Eastern Perspective”**, presented at 26th Wireless World Research Forum (WWRF26), April, 2011.

Teaching

Teaching highlights

- Dr. Mohamed has more than 15 years of experience in teaching in different academic institutions as highlighted in his CV.
- Dr. Mohamed was one of the pioneers to adopt and apply the state-of-the-art technologies and teaching pedagogies such as flipped classroom, and teaching through digital media for most of the courses he taught. He has many of his [courses widely available](#), and highly viewed by students and professionals from around the globe ([see latest audience report](#)).
- Dr. Mohamed has experience in teaching variety of courses, including Network security, Communication, and computer networks courses, in addition to programming and object oriented basic courses.

Courses

1. [Network security \(Masters and PhD\)](#)
2. [Wireless Communication \(Masters, and PhD\)](#)

3. [Selected topics in wireless networking systems \(Masters, and PhD\)](#)
4. [Advanced computer networks \(Masters, and PhD\)](#)
5. Multimedia networks
6. Wireless sensor networks
7. Wireless ad hoc networks
8. Wireless mobile communications
9. [Data communication and computer networks I \(Cisco CCNA\)](#)
10. [Data communication and computer networks II](#)
11. Advanced programming
12. Introduction to programming
13. Object oriented C++

Student Projects

1. A platform for detecting and tracking reckless driver's behavior, 2016 (**Best Senior project 2011**).
2. Efficient mHealth system architecture for remote delay-sensitive monitoring applications, 2015.
3. Assistive Technology for People with Hearing Disabilities, 2011 (**Best Senior project 2011**).
4. Scalable indoor patient and staff monitoring and tracking using wireless sensor networks, 2010.
5. WIPMON: Wireless sensor network for Industrial process MONitoring, 2009.
6. An Intelligent Traffic Light Control System for Ambulance Use, 2009
7. Wireless Patient Surveillance System using Zigbee standards, 2008

Technical Skills

Programming Languages/Tools	Object-Oriented Analysis and Design	10 yrs	Operating	MS Windows	8 yrs
	C/C++	10 yrs		Sun Solaris	2 yrs
	Java	7 yrs		Linux	2 yrs
	System Analysis	3 yrs		QNX	3 mths
	Relational Database (SQL, DB2)	3 yrs		Symbian OS	1 yr
	IBM DB2/2 & SQL Programming	3 yrs		AIX	2 yrs
	MQSeries	4 yrs		VxWorks	6 mths
	Perl, XML, XSLT	1 yr			
	IBM VisualAge C++	24 mths		OPNET Modeler & Planner	5 yrs
	Assembly	1 yr		MATLAB / SIMULINK	3 yrs
J2ME	2 yrs	NS2	3 yrs		
Symbian C++	1 yr	PLANITU	4 mths		
Visual Basic	2 mths	OptiSystem	3 mths		
		ModelSim/Leonardo Spectrum	6 mths		
Communications/Networki	TCP/IP	8 yrs	H/W	PC Cards and Motherboards	10 mths
	Ethernet	2 yrs		Printers Hardware	3 mths
	IEEE 802.11e/b/a/g	2 yrs		DEC 6000 Boards	2 mths
	H.323, H.263, H.264 and MPEG4,	2 yrs		VHDL on Xilinx Boards	3 mths
	SIP, SAP, RTP videoconferencing protocols				
	Optical Switches	24 mths			
	Optical Burst Switching	2 yrs			
	HIPERLAN	4 mths			
	SONET/SDH	6 mths
