

## The great Mosque and islamic Cultural centre in Stockholm 2008

A holistic approach for the project has resulted in a building including both cultural and cultural activities as well as sport facilities for the muslim community in Stockholm.

# The great Mosque and islamisc Culural centre in Stockholm 2008

The main and men entrance

# The great Mosque and islamisc Culural centre in Stockholm 2008

The women entrance (similar to men entrance for gender equality in nordic context)

50 apartments in Växjö – in the greeniest European city.

The secular part of the building follows the urban fabric direction and the praying hall is directed towards Mecca.

# Uppsala Mosque – my first mosque in Sweden, 1993

The traditional courtyard is covered with glazing. The quibla direction is the same as the urban structure direction. In the detail drawing the minaret is elaborated.

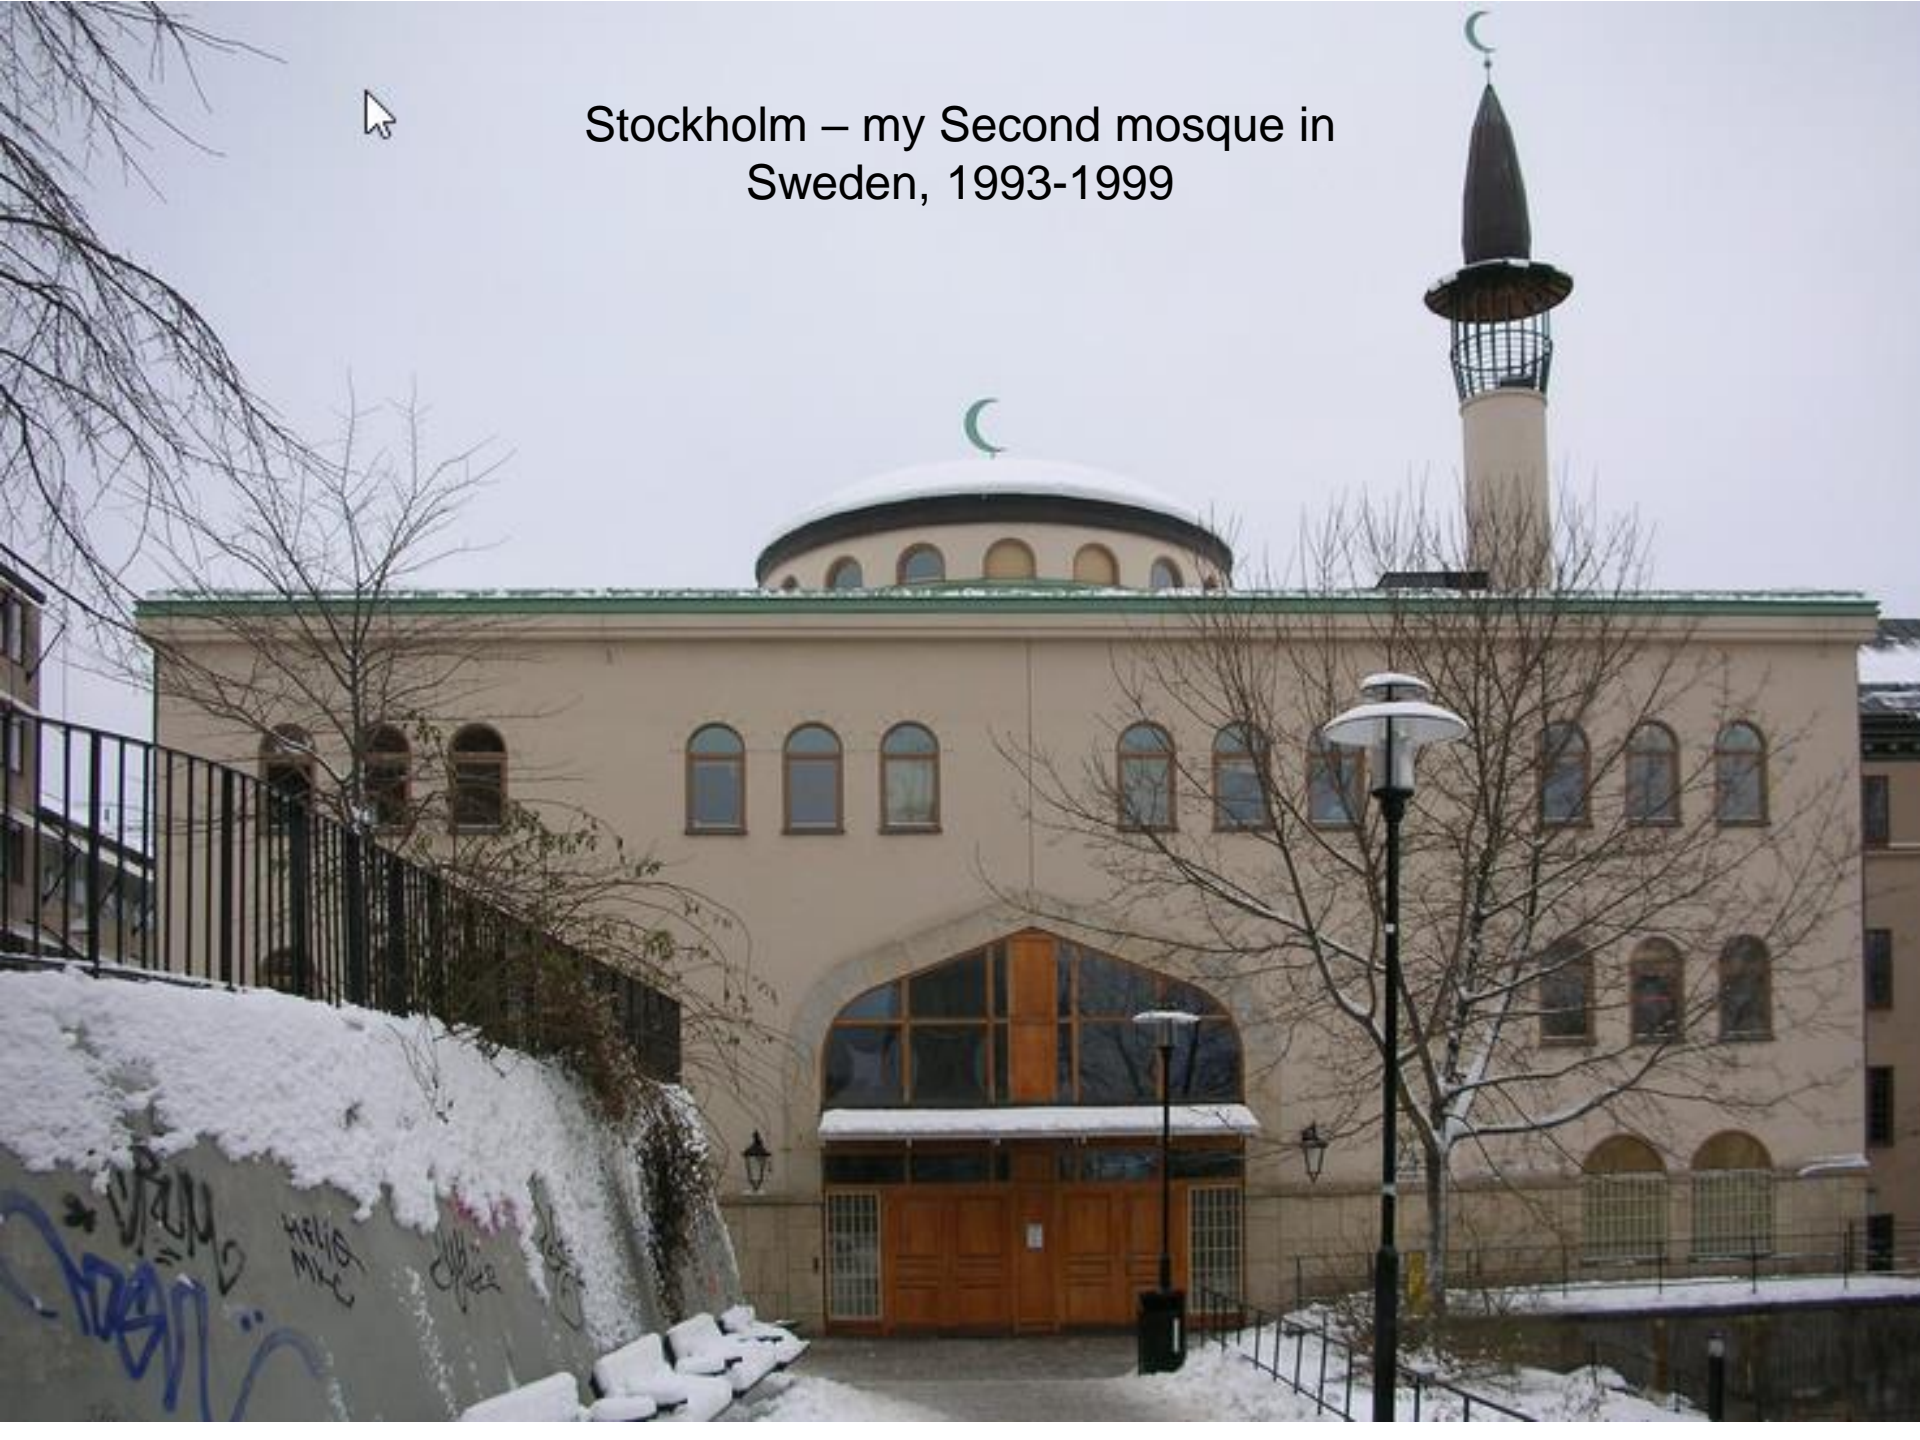

# Uppsala Mosque – my first mosque in Sweden, 1993

Stockholm – my Second mosque in Sweden, 1993-1999

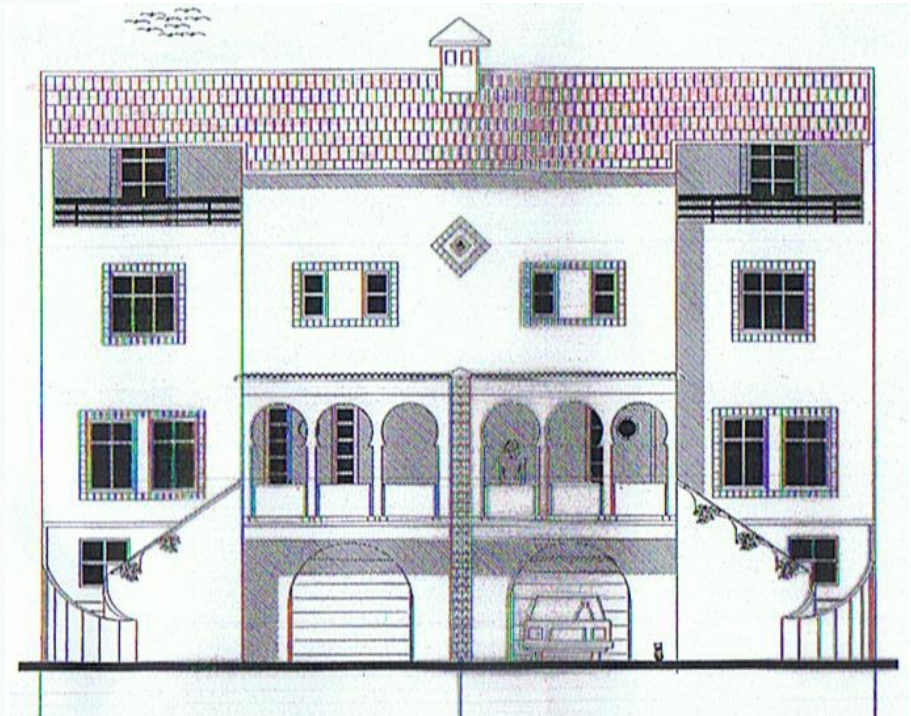

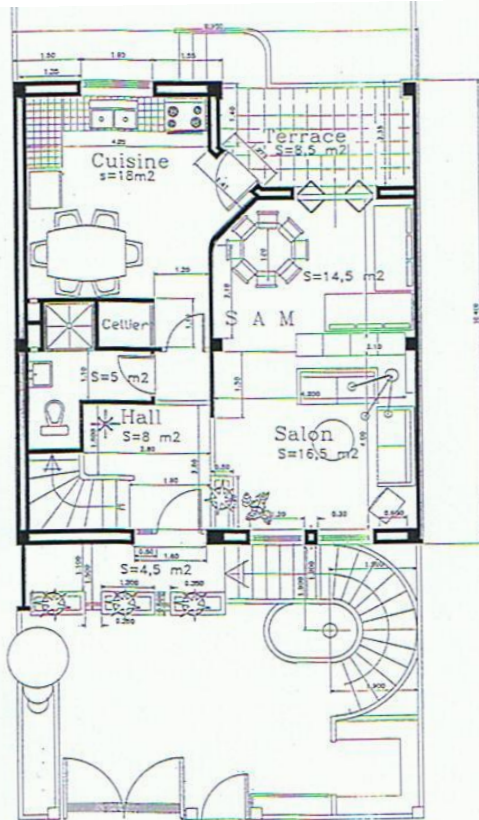

## Mosque – in the greenest European city.

This is a proposal done for the Muslim community. The minaret is integrated in the junction of the two volumes. It is glazed and it reminds the Bosnians type of minaret.
